### Understanding Child Development

*“Child development provides a body of knowledge that can help us to recognize and articulate children’s observed behaviours and discuss their emerging skills with families and others.”*

### College of Early Childhood Educators Code of Ethics and Standards of Practice

#### Standard II: Curriculum and Pedagogy

##### A. Principle

Registered early childhood educators (RECEs) co-construct knowledge with children, families and colleagues. They draw from their professional knowledge of child development, learning theories and pedagogical and curriculum approaches to plan, implement, document and assess child-centered, inquiry and play-based learning experiences for children.

#### B. Knowledge

RECEs:

1. Are knowledgeable about child development theories and understand that children's development is integrated across multiple domains and within a variety of contexts and environments.

#### C. Practice RECEs:

RECEs:

1. Observe children to identify individual and group needs and interests.
2. Collaborate with children to co-plan and implement a child-centred and play-based curriculum.
3. Use a variety of materials to intentionally create or adapt indoor and outdoor learning environments that support children's exploration and learning.

### Brigance Readiness Activities Binder

- Comprehensive
- Flexible
- Easy to Use

---

---

---

---

---

---

---

9

### How to Use the Brigance Readiness Binder

- It is all about giving children the **experiences** they need to develop the skills.
- What activities are **appropriate** for the skill levels of my group of children?
- Provide experiences across a variety of learning styles (visual, oral, tactile and kinaesthetic) so it is geared to the **individual learning styles** of all children.
- Supplement this resource with other **developmentally appropriate materials**.
