

## Including The Voices of Children within Your Pedagogy

Do children have a voice in your program? Do you engage children in the ways you have learned from their voices or do you plan experiences based on what you feel is best for them? If you would like to gain strategies on how to truly involve children within your program, then come along and join us for this fun, interactive workshop. The session will look at the importance of empowering children and how this is underpinned by Ontario's Early Learning Frameworks and the United Nations Convention on the Rights of the Child. Participants will develop a knowledge base of innovative ideas and activities, including consultation methods that children can use with each other, which afford them meaningful opportunities for participation. The session will also look at how children can be involved in planning experiences that are based on their interests.
