

Dear Families,

We have created a short survey to gather information on your child care needs once the economy re-opens. The provincial government has announced that licensed child care will begin to re-open as part of Phase 2, however, we do not yet know the specific timelines to re-open. We anticipate that when licensed child care begins to re-open it will be done gradually and additional safety precautions will be put in place. The purpose of this survey is to understand your child care needs during this re-opening phase. While we will do our best to accommodate child care needs, we are anticipating that the capacity of the child care system will be limited and we cannot guarantee a space for all children at this time.

**Please complete and return the attached survey no later than <insert date>.**
