Resource Updates to Support the Growth and Goals of Educators

ISSUE 10 • 2021

Spring is that time of year when things start to feel new and fresh so what better time to share with you some of the new resources that the ECCDC has to offer through our Resource Lending Library and our E-store. We are always working on developing new resources so if there is something new you would like to see offered for borrowing through the library or an item to purchase through E-store, we would be pleased to hear from you. [Click here](#) to send your ideas to the ECCDC.

New Provocation for Learning Kits for Borrowing

Young Children Engage in Yoga Experiences

We can all use a little more “zen” time, so this supplementary kit was designed with that in mind. It includes resources to support the children and the educator in learning more about practicing yoga.

Exploring Stacking & Balancing with Cylinders & Discs

The Yoga kit will help children to balance their bodies, while this provocation for learning kit will work on their fine motor development through stacking and balancing with these loose parts.

Exploring Outer Space Through Small World Play

This kit supports elements of sensory play with the addition of moon sand, lava rocks and the rotating stars and moon light but also provides children with opportunities to explore outer space through play.

Exploring Sea Life Through Small World Play

There is nothing more vibrant than the colours from the sea. Young children will love exploring this provocation for learning kit that highlights the wonder that can be found beneath the surface.

Community Places – At the Airport

There are so many interesting things that happen at the airport. Even though we cannot travel right now, it does not mean that children are not intrigued by these happenings. The supplementary kit engages children in imaginative play while learning about what happens at the airport.

Natural Materials Treasure Basket for Infants & Toddlers

We have been working to update all our natural material treasure baskets and here is an example of one that is complete. The ECCDC has six of these in total and they will soon all be updated and ready to borrow.

New Resources for Purchasing on E-Store

Young Children Explore Indigenous Books Through Storytelling Experiences

The stories in this kit were chosen to highlight some of the amazing Indigenous Authors that Canada has to offer. The stories reflect the diverse cultures, perspectives, and experiences of Inuit, Métis and 29 First Nations.
